7024757112

<https://www.linkedin.com/in/mukesh-mandeliya-504634198>

### OBJECTIVE:

To work in an esteemed organization, that could provide me ample opportunities and experience for a bright career, where I could utilize my knowledge & maximize my technical skills and strive hard to come up to the Organization's Expectations looking to excel in the field of GIS.

### PROFILE:

I have 5 years of experience in the field of GIS Data Analyst as an Associate in GIS. Extensive Experience in Telecom (FTTH,FTTP,FTTC,GPON,OLT,ONT and HFC) and GIS projects using AutoCAD/Proge CAD, IKE Tool, Katapult, Google Earth, Global Mapper, Arc GIS, QGIS, IQGEO, Spatial Net, ARAMIS, Magellan, Fusion X, Spida Calc, O'Calc, Quick Pole, Survey projects and Geographical map conversion in Telecommunication concepts of OSP/ISP planning and designing and specifications. Experience in PLA and TCP. Strong collaboration, team building, interpersonal, communication skills with proficiency at Grasping new technical concepts quickly & utilizing the same in a productive manner. Good Knowledge on Digitization. Excellent interpersonal and leadership skills and quality conscience, Result oriented, a team. Player, enthusiastic & self-driven, with a high degree of commitment.

### ACADEMIC QUALIFICATION:

- 10<sup>th</sup> [2006] with aggregate of 74% from MP Board of Higher Secondary Education.
- 12<sup>th</sup> [2008] with aggregate of 62% from MP Board of Higher Secondary Education.
- B.E. in Civil [2014] with aggregate of 58% From RGPV Bhopal.

### EXPERIENCE:

1. Working as GIS Executive in **Genesys International Corporation Limited** at Mumbai from 15<sup>th</sup> Feb 2019 to 9<sup>th</sup> Jul 2021.
2. Working as a Design Specialist in **Cyient Limited** at Hyderabad from 9<sup>th</sup> June 2022 to 8<sup>th</sup> Feb 2023.
3. Working as a Sr. GIS Engineer in **Ramtech Software Solution Pvt. Ltd.** at Hyderabad from 27<sup>th</sup> Feb 2023.

### TECHNICAL SKILLS:

Applications:- AutoCAD(Certificated )/ Proge CAD, IKE Tool, Katapult, Google Earth, Global Mapper, Arc GIS, QGIS, IQGEO, Spatial Net, ARAMIS, Magellan, Fusion X, Spida Calc, O'Calc, Quick Pole & M.S Office Word, Excel, Power BI.

### KEY SKILLS

- |                             |                                       |
|-----------------------------|---------------------------------------|
| ⊕ OPTICAL FIBER/HFC/COPPER  | ⊕ CUSTOMER SUPPORT                    |
| ⊕ PERMIT DRAFTING           | ⊕ FTTx NETWORK PLANING & OPTIMIZATION |
| ⊕ RF OPTIMIZATION, PLANNING | ⊕ TEAM MANAGEMENT                     |
| ⊕ ASBUILT DESIGN            | ⊕ QA AND QC                           |
| ⊕ POLE LOAD ANALYSIS        | ⊕ END TO END DELIVERY                 |
| ⊕ ADDERES VALIDATION        | ⊕ CLIENT MEETING                      |
| ⊕ ISP/OSP DESIGN            |                                       |

Project Summary- COMCAST, CHARTER, PRECISION VALLE COMMUNICATION, AT&T, ROGERS, LUMEN, CG BHARAT NET, AECON, MOBIA

## TELECOM EXPERIENCES 5 YEAR 2 months

### PROJECT: ---1

#### PROJECT DESCRIPTION

COMPANY :- Genesys international corporation Limited  
PROJECT :- CG Bharat Net ( Telecom Fiber cable)  
DURATION :- 1year  
CLIENT :- Chhattisgarh State government  
ROLE :- Production And QC  
Application Uses. :- QGIS, Arc Map, Google Earth, AutoCAD, Spatial Factory

In this project, we connected all Gram Panchayats to high-speed internet services by collecting Right of Way (ROW) data to address challenges in rural areas. We captured road edge lines and roadside features, such as buildings, trees, and electric poles, using Spatial Factory software with the help of cloud images and PANO images. The data was then modified using QGIS and Arc GIS. Additionally, we designed underground and aerial permits for the optical fiber network.

### PROJECT: ---2

#### Optical Fiber Cable (OFC) Network Deployment /Route Developed OF FTTH, FTTP, FTTB

##### Project Overview:

The Optical Fiber Cable (OFC) Network Deployment project focuses on providing high-speed broadband connectivity by laying fiber optic cables underground or aerially. This project is crucial for telecom operators, internet service providers (ISPs), and government initiatives like Bharat Net to expand digital connectivity in urban and rural areas.

##### Process to Complete the Project:

Detail skeleton, of provide fibre to every house with Low level design and High level design of fibre network design of Ireland. Client will provide the scaled source in vector format which is non geo positioned. In scaled maps we have mainly aerial and buried and some underground network is present. In non- scale maps we have mainly underground features and sometime aerial features also available. We need to migrate all these features in Land base according sources FDGN and UDG N as per client specification.

Software Used: Arc Map & Google Earth

- Client: MTNL
- Company: GENESYS
- Responsibility: Network Planning, Designing for FTTx Fiber Network
- Experience in End-to-End FTTx Fiber Network Design starting from Optical Line Terminal (OLT) Located at BTS to Optical Network Terminal (ONT) at Customer Premises, with 2-Stage Splitter for FTTX GPON Fiber Network.

##### Planning & Survey

Conduct a feasibility study to determine the best route for fiber deployment.

Capture Right of Way (ROW) data to address legal and regulatory challenges.

Perform Geospatial Mapping to record road edge lines, roadside features (buildings, trees, electric poles), and existing utilities.

### PROJECT: ---3

#### PROJECT DESCRIPTION

COMPANY :- CYIENT (8 month)  
PROJECT :- ROGERS/ LUMEN FTTx  
CLIENT :- **Rogers Communication North America**

(Toronto,Uxbridge,Mono,Ramara,Mulmur,Hilton hills,Ottawa,Hamilton,Brockville,Brampton,Oakville, Orillia,Ottawa,)

#### ROLE

- Prepare UG/Aerial HLD Design as per Customer Requirement
- Drafting UG/Aerial Permit DWG for Different Authorities like Town, County, NVCA,MTO AS Per the Given Guidelines
- Draft Splice closures & splice plan from central office to splitters
- Prepare &update Splice Package
- Ensure to follow all the updates & Feedback provided by onshore & Customers.

- Ensure the all the files must be delivered within the given timeline with 100% quality.
- Ensure the permit design must be as per latest fiber design.
- Working on FTTH Network Planning of GPON Network for Canada by usingProgeCad, Auto-Cad,
- Audit, Quality Check and quality analysis of Newly Design Network.
- Planning OLT location and insuring Backhaul Connectivity
- Validate all changes management proposed during pre-network construction and network construction period incorporate only valid changes.
- Working on OSP & ISP Planning for Network Protection and Route Optimization.
- Change & Upgrading in Existing Planned area as per Customer Requirements.

PROJECT: -4

#### PROJECT DESCRIPTION

COMPANY : - RAMTech (6 month)  
 PROJECT : - PVC  
 CLIENT : - **Precision Valley communication**  
**Application Uses** : - **Spatial Net and AutoCAD**

- FTTH, FTTx ,FTTP,FTTC,FTTB,FTTN/OSP Fiber/copper/HFC Network planning &design
- HFC Node Configuration (1x1, 1x2, 2x1, 2x4, 4x2).
- Check the existing RF Design profile and replace any equipment in the network as required.
- Node Port Modification and Master Circuit.
- Working on OSP & ISP Planning for Network Protection and Route Optimization.
- Change & Upgrading in Existing Planned area as per Business Requirements
- Configure, install, upgrade CISCO Routers, UBR, SWITCHES
- Prepare Color Schematic and BOM.
- **MDU/MTU Engineering and Construction:** Providing backbone, terminal, and pathway engineering, riser designs, pathway construction, and fiber and coax terminations.
- QC ,QA and Delivery
- Support to team & manage.

PROJECT: -5

#### PROJECT DESCRIPTION

COMPANY : - RAMTech (6 month)  
 PROJECT : - Charter Magellan Fiber Optic Network  
 CLIENT : - **Comcast**  
**Application Uses** : - **Magellan**

- FTTH, FTTx ,FTTP,FTTC,FTTB,FTTN/OSP Fiber/copper/HFC Network planning &design
- HFC Node Configuration.
- As built Design- Replace the all Existing equipment as per client requirement to latest manufacture and technology.
- Fiber splicing- EDFA Slicing, Splice Enclosure placement and connection.
- Multiplexers (Muxes) and Splitter - provide Mux to Mux Connection.
- Change & Upgrading in Existing Planned area as per Business Requirements
- Creating Network Boundaries- Node Boundary, Bus Boundary, Power Supply Boundary.
- **MDU/MTU Engineering and Construction:** Providing backbone, terminal, and pathway engineering, riser designs, pathway construction, and fiber and coax terminations.
- QC ,QA and Delivery
- Support to team & manage.
- Provided tier support for technicians, tasked with final resolution of repeat calls for advance services (telephony, high speed data, and the hybrid-fiber coaxial plant).

PROJECT: -5, 6 (+1 years)

**PROJECT DESCRIPTION**

COMPANY : - RAMTech (15 month)  
PROJECT : - PLA (POLE Load Analysis)  
CLIENT :- **HONI/ AECON/AT&T/MOBIA**  
**Application Uses** : - **Spida Calc, O'Calc and Quick Pole**

**Responsibilities:** QA, QC and Delivery to client end to end.

**Brief Description:**

Measured and Recommended Design Preparation, Prepare Make Ready for permit team.

Overhead Distribution Circuit generally installed on the public road allowance. Therefore, they have to design and constructed in compliance with an applicable standards for the safety of public in Canada, Standards issues by the Canadian standard association (CSA) & USA, the Electrical Safety. The load on pole and strength of analyses for Aerial cable Distribution. Main Criteria to consider while designing:

Client provide Input

- 1 Physical survey and acceptance for same in HLD Designing.
2. PN/DR List (Pole replacement Required and Defective )
3. Hazard List – Pole inspection .

Output-

Spida or O'Calc Report

Make ready Report

Clearance Report

- 2.Physical survey and acceptance for same in HLD Designing.

**PERSONAL SKILLS:**

- Equally effective working alone as well as within a team environment.
- An ability to learn new tasks and information quickly.
- Diplomatic and professional when dealing with challenging customers.

**HOBBIES:**

- Exploring Distant land and capturing moments
- Getting lost in a good Books.

**STRENGTH:**

- Attention to detail
- Punctuality And Time management
- Problem-Solving ability And Decision Making
- Analytical Skills

**PERSONAL PROFILE:**

|                       |                                |
|-----------------------|--------------------------------|
| <i>Father's Name</i>  | : Mr. Jagdish Prasad Mandeliya |
| <i>Mother's Name</i>  | : Lt. Smt. Premvati Mandeliya  |
| <i>Date of Birth</i>  | : 10-Aug-1988                  |
| <i>Nationality</i>    | : Indian                       |
| <i>Marital Status</i> | : Married                      |
| <i>Language Known</i> | : English, Hindi               |

**DECLARATION**

*I do here by declare that the particulars given above are true and correct to the best of my knowledge And brief.*

Place: Gwalior (M.P.)

Date:

Mukesh Kumar Mandeliya
